
Michigan Department of Community Health

Strategic Plan

Mission

The Michigan Department of Community Health (MDCH) strives for a healthier Michigan. To that end the department will:

- **promote access to the broadest possible range of quality services and supports**
- **take steps to prevent disease, promote wellness and improve quality of life**
- **strive for the delivery of those services and supports in a fiscally prudent manner.**

Vision

The MDCH will be the national leader in the design and implementation of effective strategies that are culturally responsive and competent, customer-driven, and community-based, which leads to quality health outcomes.

Goals

1. **Develop and pursue a legislative policy agenda which advocates for and protect the health of Michigan's citizens**
2. **Design and implement a service delivery system across the entire spectrum of services and supports to Michigan's citizens that is accessible, efficient, effective, and innovative**
 - **The entire spectrum of services and supports includes those that are preventive, restorative, habilitative, and that mitigate the effects of disabilities**
 - **Services and supports are accessible and foster or preserve:**
 - **Self-determination, choice, personal responsibility and**

independence

- **Economic independence and productivity**
- **Community membership**
- **Safe and healthy environment**

- 3. Protect and improve the health outcomes of the people of Michigan**
- 4. Achieve quality improvement through meaningful accountability**
- 5. Promote excellence and accountability in the design and administration of the Department of Community Health**
